

**Interzoo**  
*digital*

# Follow up

Dear customers,

Together we have participated in an exciting experiment at this year's »Interzoo digital«. We were able to see for ourselves how much digital potential there is in our unique industry and what is possible when external circumstances challenge both companies and each and every one of us to find creative solutions, new ways of communication and flexible approaches.

To ensure that the euphoria of Interzoo continues for as long as possible and to make it easy for you to decide in favour of HUNTER as a reliable partner, we have compiled our highlight collections for you once again in a compact and clear manner on the following pages.

## A reliable companion since 40 years

Forty years old, but fresher and more innovative than ever. And yet, we never forget where we came from. We value tradition, but have a clear focus on the future. Our heart is our leather factory in the middle of Germany. That is where company founder Rolf Trautwein brought HUNTER to life 40 years ago. Some stages of

the manufacturing process are still carried out by hand today, as they were then, while the latest technology helps make others more efficient and flexible. But one thing hasn't changed in 40 years: our commitment to quality and your satisfaction.

## Products that bring real joy!

»As the daughter of a master saddlemaker, a love of leather is in my blood. I was just five years old when the company was founded, but I was very interested in the products from an early age, not least because I also grew up with dogs. From an early age, I knew that one day I would work at HUNTER, because what could be better than putting all our passion, and an eye for detail, into making wonderful things for our loved ones? For our four-legged-friends, who enrich our lives

and give us so much. Working with a beautiful, natural and, above all, sustainable material, which stirs emotions through its feel and smell alone, which becomes more expressive with use, which is long-lasting, robust and repairable, all at our factory in Bielefeld, fills me with joy each day. Together with my team, I want to share that excitement with our customers – and we pursue that goal with dedication and a lot of enthusiasm.«

A handwritten signature in black ink, reading "Nadine Trautwein". The signature is written in a cursive, flowing style. There are horizontal lines extending from the left and right sides of the signature.

## AALBORG SOUL

The AALBORG series has become an absolute star in the HUNTER range. All over the world, dog owners appreciate the simple beauty of the designs, the unsurpassed leather quality and the perfect craftsmanship. With the collar AALBORG SOUL, the training collar AALBORG with discreetly sewn-in stop ring and the shapely

Easy Step-In harness DIMARO, the AALBORG family has received a long-awaited extension. The collars, harnesses and leashes of the series can be combined individually and complement each other perfectly. All leather accessories meet the highest quality standards and are handmade - »Made in Germany« since more than 40 years.

MADE  
IN  
GERMANY

## SOLID EDUCATION

Finally, new members in the SOLID EDUCATION family! Loyal HUNTER fans have long appreciated the series. The recent relaunch was accompanied by optimisations such as the use of an even better leather quality. For the first time, the product family now also includes a retriever leash as well as new shapely colours and variants that make the hearts of design- and trend-savvy dog owners beat faster. SOLID EDUCATION

is ideal for training and dog sports, but also cuts a fine figure in everyday life. Thanks to the carefully selected, rich colours it matches every coat and every outfit. Characteristic are the lovingly hand-braided elements and the pleasantly soft leather that is carefully rounded and sewn with strong thread. Solid quality, for a dog's lifetime - and of course »Made in Germany«.

## CONVENIENCE REFLECT & REFLECT GLOW

For pragmatists who care about functionality, safety and durability. For dog owners who can't get enough of fashionable prints and for comfort lovers who don't want to have to care for a collar and leash in addition to their »shaggy dog«. For all those, the luminous CONVENIENCE REFLECT and CONVENIENCE REFLECT GLOW series are a reason to cheer. They are made of a light, hard-wearing plastic composite that is printed on the outside with either a starry night sky or a stylish leopard pattern. Water and dirt have no chance to penetrate the material - dog accessories have never been easier to

clean! The products in the CONVENIENCE REFLECT series reliably reflect the light from car headlights and the like. If that's not enough, the visually almost indistinguishable »sibling« is an excellent choice. The collars and leashes called CONVENIENCE REFLECT GLOW not only reflect all light sources but even glow in the dark. This ensures perfect visibility of the four-legged friend when running free and is particularly gentle on the eyes of the accompanying two-legged friend. Night owls with a penchant for serenity will be delighted with this addition to the popular CONVENIENCE series.

## DIVO REFLECT

If you love DIVO, you'll be thrilled to no end by DIVO REFLECT. The range offers the comfort, bright colours and perfect fit of the DIVO range, but tops it all in terms of »safety thanks to visibility«. The all-over print in camouflage style is highly reflective and optimally complements the effect of the surrounding 3M™ Scotchlite™ Reflective Material. The DIVO series stands for 100 percent feel-good comfort, as the breathable padding made of soft mesh material virtually flatters the skin and coat. The design of the collar scores points with its strain relief - the pressure is distributed over the entire collar and does not

weigh down on the plastic buckle at specific points. DIVO REFLECT also offers an excellent solution for four-legged friends who find wearing a harness more comfortable. Ergonomic fit and individual adjustability with minimal weight are the features with which the modern Y-harness scores points. Don't worry, the »other end of the leash« has also been taken into account: The reflective elements do not end at the dog but continue along the entire length of the leash into the hand loop. DIVO REFLECT - Impressive luminosity, without a headlamp or torch.

## FC BAYERN MÜNCHEN

FC Bayern München stands for international class, top quality and emotionality like hardly any other club. It unites its loyal fans worldwide into one big family. Deep down, this connects the Munich record champion and the modern family-owned company from Bielefeld, who are going down the same path for the first time with this eye-catching collection. Both »teams« are proud of the launch of a consistently coherent collection of globally successful top sellers. »Mia san mia« - whether in Bielefeld or Bayern, we make fan

hearts beat faster. FC Bayern München supporters can confidently show the whole world which sport and which team they love. Whether it's a collar, harness or leash, a chic melamine bowl with a base in the design of the Allianz Arena or a sporty, light snack bag as a culinary reward after a hard training session - the robust collection in the traditional club colours of the record champion knows how to inspire and gives walks with your four-legged friend a real kick.

## Ceramic bowl OSBY

Timeless straight lines and well thought-out functionality characterise the OSBY ceramic bowl. Four-legged friends enjoy their daily food ration and fresh water from the pleasantly heavy food or drinking bowl. The natural colours and the classic shape with a nobly embossed dog silhouette con-

vey a feeling of originality and durability. Thanks to the all-round silicone rim on the base and the relatively high weight, the bowl stands particularly securely and is also gladly accepted by sensitive dogs. If you are looking for a long-lasting, stable and easy-care bowl, OSBY is a good choice.

## Rain coat for dogs MILFORD

Allow me, MILFORD! It resembles the classic oilskin jacket and is just as practical and functional as the »human version« of the reliable must-have. Of course, the special needs of four-legged friends were taken into account in the design of MILFORD. Elastic straps on the hind legs ensure that the light coat fits perfectly, even in strong gusts of wind. Thanks to the ergonomic fit, the dog's sensitive neck, back and belly are perfectly protected without restricting freedom of

movement. Putting it on and taking it off is just as easy as the intuitive adjustment of the belly strap and neck collar. Just a few hand movements and MILFORD is ready for drizzle, heavy rain and downpours - because sometimes the walk with your four-legged friend cannot be delayed. Showing the »muddy weather« the cold snout and looking uncompromisingly good at the same time - that doesn't have to be a contradiction thanks to MILFORD.

## SANSIBAR MORSUM

The long-standing friendship between HUNTER and the iconic lifestyle brand SANSIBAR goes into the next round. This time, canine fun and culinary enjoyment are at the top of the list. In close cooperation, convincing highlights have been realised that will not only make Nordic hearts beat faster. The SANSIBAR MORSUM frisbee whistles audibly through the air and is then caught by the four-legged friend at exactly the right moment. The animating whistle is generated by slit-shaped openings in the surface of the frisbee - this definitely takes exuberant play sessions to a new level! Thanks to the rubberised edge, MORSUM is particularly tooth-friendly and is great fun for medium-sized and large dogs. The MORSUM snack bag is also sure to put

your dog in a good mood. From now on, the search for the last crumbly treat in your jacket pocket is over! The aesthetic »snack depot« made of food-safe silicone is an all-round clean thing. Reward morsels won't fall out accidentally and their smell won't get through to the two-legged table neighbours in the restaurant either. Thanks to the practical plastic clip, the snack bag can be attached flexibly to your own clothing. SANSIBAR MORSUM enables dog owners to promptly reward their four-legged friends for desirable behaviour, such as staying well-behaved at the table or retrieving the unique frisbee of the same name. The smart must-haves with the look and feel of Sansibar are without question a feast for all the senses!

## Dog toy SKAGEN

Playing and cuddling with the cute figures of the SKAGEN series may bring back holiday memories for one or the other four-legged friend - of idyllic sandy beaches, roaring waves, salty air and the feeling of freedom. The cuddly companions are designed for quiet play and noise-sensitive dogs. A squeaker was therefore deliberately omitted from the production process. For the sake

of the environment, the SKAGEN toys are made of 100 percent recycled materials. The filling is made of recycled polyester, the pleasantly grippy exterior of starfish, octopus and co. is made of upcycled wool. This conserves valuable resources and gives four-legged and two-legged friends deep joy when playing together or cuddling with undivided attention.

*Upcycled & Recycled*

Have we aroused your interest?

You can find more innovative novelties and must-haves for dog and cat owners in our current general catalogue HUNTER Vol. XI:

[www.hunter.de/en/downloads](http://www.hunter.de/en/downloads)

We will also be happy to send you a printed version of our climate-neutral catalogue on request.

## B2B Kundenservice *Customer service*

### Liebe Kundinnen und Kunden,

Wir arbeiten stetig daran, unseren Service zu optimieren und bestmöglich für Sie da zu sein. Aus diesem Grund haben wir eine Hotline ins Leben gerufen, über die Sie unsere Kundenbetreuung direkt erreichen können.

Sie haben Fragen zu Artikeldetails, Lieferterminen oder Bestellungen?

Wir sind gerne für Sie da! Rufen Sie uns an unter:

**+49 (0)521 16399-760**

### Kennen Sie schon unser B2B Händlerportal?

Wenn nicht: Kontaktieren Sie uns, wir erklären Ihnen gerne die vielen Funktionen unserer Bestellplattform. Oder lassen Sie sich direkt Ihre Zugangsdaten geben und profitieren Sie von den vielen Vorteilen, die unser B2B Shop bietet:

- Erreichbarkeit 24/7
- Lieferung innerhalb von 24 bis maximal 48 Stunden\*
- Verfügbarkeiten und Liefertermine prüfen
- Merkzettel anlegen
- Sortimentsübersicht
- Schnellerfassung
- Statistiken
- SALE Bereich
- Regelmäßiger Newsletter-Versand zu Aktionen und wichtigen Informationen

Wir freuen uns auf Sie!

### *Dear customers,*

*We are constantly working on optimising our service and being there for you in the best possible way. For this reason, we have set up a hotline where you can reach our customer service directly.*

*Do you have questions about item details, delivery dates or orders?*

*We are happy to be there for you! Call us at:*

**+49 (0)521 16399-740**

### Do you already know our B2B dealer portal?

*If not: contact us, we will be happy to explain the many functions of our ordering platform to you. Or get your access data directly and benefit from the many advantages our B2B shop offers:*

- *24/7 availability*
- *Delivery within 24 to maximum 48 hours\**
- *Check availability and delivery dates*
- *Create a notepad*
- *Assortment overview*
- *Fast entry*
- *Statistics*
- *SALE area*
- *Regular newsletter on promotions and important information*

*We look forward to hearing from you!*
